**POST BIOPSY WOUND CARE INSTRUCTIONS**

1. Leave band aid or dressing on for 24 hours after procedure.
2. Let dressing get wet in the shower and remove at that time. Shower with soap and water and let soap and water run over the area. **DO NOT SCRUB !**
3. After showering, pat dry.
4. Apply Neosporin or Bacitracin Ointment to the area and cover with a band aid. (If allergic to Neosporin or Bacitracin Ointment, use a new jar of Vaseline Petroleum Jelly.
5. Change band aid daily for 7 days. (If allergic to band aid, use gauze and paper tape, such as Nexcare or Johnson & Johnson.)

If you have any questions, please feel free to call our office.
