

SK Dermatology Updated COVID-19 Safety Policy

Recent CDC relaxed masking protocols for vaccinated patients do NOT apply to health care settings. Masks must continue to be worn at all times within our healthcare facility. Please wear a mask upon entering our office until you are instructed to remove it by our providers.

Patients will be screened with questions prior to their appointments.

Temperatures will be checked on anyone entering our premises via forehead scanners upon arrival.

When necessary, we will maximize virtual check-in and check-out to maintain social distancing.

Patients who feel ill or have symptoms of infection will be rescheduled or evaluated via telehealth.

Our providers will wear appropriate personal protective equipment during medical evaluations and procedures. All staff will be screened daily for symptoms prior to coming in contact with patients.

Our premises and especially examination rooms will be cleaned and disinfected between patients throughout the day.

We appreciate your cooperation in implementing these safety measures for all our patients and staff. If you have any COVID related questions or other safety concerns, do not hesitate to call us at (201) 503-0302 prior to your visit.

Thank you,
SK Dermatology
